

Biometric Sensor in Motorcycle Hornet

A digital finger sensor to protect against theft.

Things used in this project

Hardware components

	Arduino Mini 05	× 1
	Relay (generic)	× 1
	Biometric Sensor - Model: FPM10A	× 1
	Digilent Voltage Regulator Module	× 1

Software apps and online services

	Arduino Web Editor
---	------------------------------------

Hand tools and fabrication machines

	Soldering iron (generic)
	Solder Wire, Lead Free
